About College Possible Philadelphia

College Possible Philadelphia is a non-profit organization that makes college possible. We are committed to supporting Philadelphia and Delaware County youth, often first-generation students, through the college application process and helping them persist to a college degree. College Possible Philadelphia works to address the unique academic, social and financial barriers that may hold back low-income, first-generation students from making their dreams of college a reality. Students receive intensive SAT exam preparation; college application and financial aid assistance; guidance in the transition to college and comprehensive support through college completion. An impressive 98% of College Possible Philadelphia high school seniors from the class of 2017 were accepted into college, receiving over \$2 million in much-needed scholarships while 84% of College Possible Philadelphia students from the 2016 are persisting in college.
